

## LAUDANUM ENOUGH TO KILL TAKEN BY EAST END MAN

Prompt Medical Attention All That Saved Roland Grubb From a Suicide's Grave.

### REPENTED AFTER SWALLOWING THE DRUG

Because he could not straighten up after a long debauch, Roland Grubb, aged 33 years and single, attempted suicide early Saturday night by drinking half an ounce of laudanum. Grubb entered a saloon on Mulberry street, asked for a glass of water, drank a part of it, drained the bottle of poison, and then finished the glass of water.

There were several people in the saloon, but not one of them realized Grubb's purpose in time to prevent him draining the bottle. Horrified they expected to see him fall to the floor and die an awful death, but while they stood spellbound watching him Grubb changed his mind about dying.

"I have drunk laudanum enough to kill me," he cried. "But I don't want to die." Dazed with the thought that he was face to face with death and partly under the influence of the drug Grubb was in a condition of collapse. His pitiful appeals for help were responded to and he was assisted to the office of Dr. R. J. Marshall.

Fortunately for Grubb, that his desire to live might be realized, Dr. Marshall was at home and lost no time in administering the proper antidote. A

delay of a few minutes would have been fatal. Dr. Marshall worked for half an hour with the badly frightened man and succeeded in counteracting and rendering harmless the effects of the drug. Grubb was deathly sick for some hours, but he clung to life with a tenacity that warrants he will not repeat the attempt to end it.

Grubb is an odd man at the Laughlin pottery, and it is said had been drinking heavily for several days. No other cause can be assigned than that he grew despondent after the debauch and being in a debilitated condition thought to end his misery.

The laudanum was purchased at an East End drug store, Grubb stating that he wanted to use it for neuralgia. There was nothing suspicious about his appearance, and as he signed the poison register as required by law his statement was not questioned. The poison was purchased less than half an hour before he drank it in the saloon. After leaving the drug store he went to the home of Wiley Burdett, on St. George street, where he boards. His room mate saw the poison bottle, but did not suspect Grubb's intention.

## PHOTO SOCIETY'S ANNUAL EXHIBIT

MARKED IMPROVEMENT OVER  
FORMER YEARS IS SHOWN.

The Show at the Carnegie Library is Worthy of Note in Many Ways.

The third annual exhibit of the East Liverpool Photographic Society is in progress at the Carnegie library. Those who are interested in the art of photography will notice a marked improvement over the exhibitions of former years. The first attempt made towards a display was in Lewis Bros' window in May, 1902. There was so much interest evinced in the work of the club that in November, 1902, a fine showing was made at the library. There was no exhibition during 1903, but the careful choosing of subjects, the technical and artistic ability which the present exhibition shows, more than compensates for the length of time between exhibits.

The society has 15 members. Some of the exhibitors this spring are F. M. Knowles, C. F. Gray, E. M. Fuller, Joseph P. Harrington, W. H. Phillips and T. B. Gotham.

The pictures are platinum, blue prints and sepia tones, and cover every field so that all tastes are gratified. Landscape and marine views predominate with a fair share of still-life and portraits. Almost every section of the country is represented from a New England fishing village to the palms of Florida. Many well known spots are easily recognized.

A new feature of the society's work is the portrait photograph and since good portraiture, even in painting is one of the most difficult feats, so also it is in photography. The ideals to be sought are in the first place a likeness, but not merely a likeness of a temporary expression; it should be typical, a summary of characteristics into one look. In making these photographs the members of the society have aimed not so much at presenting the features of the subject, but to acquaint the chance spectator with the soul of the model and his look.

That distinctness is secondary to a characteristic expression artistically emphasized is proven by almost any example of this type which is being shown at the library.

The pictures are all well gotten up, many being handsomely framed and mounted. Several hundred people have already viewed the photographs and there is no doubt but that the work is equal to that done by the best amateurs.

## FALL FROM A TRESTLE NEARLY ENDED FATALLY

The Injured Man Picked Up Unconscious With His Right Arm Broken.

Charles Yonson, a resident of Wellsville, fell over the West End trestle last night and came near being killed. He missed a car on the East Liverpool railroad and started to walk to his home.

He was rendered unconscious by the fall. Dr. James Taylor dressed the wounds. His right arm was fractured and he was badly bruised about the body. He was unable to go home today.

## NOTED RIVERMAN SLOWLY DYING

Commodore Kountz, a Native of This County, Near Death's Door.

### HELPED TO MAKE HISTORY

William J. Kountz, of Allegheny, better known as Commodore Kountz, is reported as slowly dying at his home. Mr. Kountz for years was a national figure and was known as one of the most remarkable men west of the Allegheny mountains. In the war of the rebellion he played an active part and gained his title of commodore. For 53 years he owned and operated boats on the western rivers and was known from Pittsburgh to the gulf, and from Cairo to the headwaters of the Missouri and Platte rivers.

Commodore Kountz was born near Wellsville in May, 1819. He was the son of John Kountz, one of the pioneer potters of eastern Ohio. At the age of 10 he started to learn the trade of barge building and at the age of 15 was captain of his own boat. For years he owned a small fleet of what was then known as "keel" boats that were floated down stream with freight from Pittsburgh, and poled and rowed back. Hundreds of trips the young man made up and down the Ohio and Mississippi rivers prior to the introduction of steamboats in western waters.

Early in life he established the Kountz line of boats and the trade brought him wealth. In 1862 he was sent from Pittsburgh with a fleet to carry government supplies to General Grant, and it was his arrival at Pittsburgh Landing that made Grant's great victory at Shiloh possible.

Mr. Kountz after the war built some of the finest steamboats that ever operated on the Ohio. He was one of the organizers of the C. & P. railroad and also of the Pittsburgh & Cincinnati packet line. In 1882 he sold his river interests and settled in Allegheny, where he has been prominent as a street railway promoter and in other lines of business. He was the first president of the Pittsburgh, Allegheny & Manchester Traction company. He owns a large brick works at Harmarville, Pa., and is the principal owner of the Red Raven Spills company.

Commodore Kountz was married first to Miss Catherine McKelvy, a member of a prominent Pittsburgh family. She died several years after their marriage. He was later married to Miss Peninah Weaver. The children still living are: Mrs. Thad C. Jones, of St. Paul, Minn.; Mrs. W. H. Fitch, of Rockford, Ill.; Mrs. R. B. Backus, of New York city; Miss Lulu Kountz and George Kountz, of Allegheny. The eldest son, William J., Jr., the humorous writer, author of "Billy Baxter's Letters," died five years ago. Mrs. Kountz died several months after the death of her son.

## DELEGATES CHOSEN BY DEMOCRATS

Men Who Will Represent East Liverpool at the Congressional District Convention.

The Democratic caucus held at city hall Saturday evening to elect delegates to the congressional convention to be held at Alliance May 6, resulted in the following men being chosen:

First ward, Thomas Starkey; Second ward, Thomas J. Lynch; Third ward, J. C. Walsh and Edward Cook; Fourth ward, J. W. Hunter and John McKinney.

St. Stephen's Club. St. Stephen's club will hold a meeting of special interest and importance in their club rooms at 8 o'clock Tuesday evening.

## BUSIEST WEEK OF THE SESSION

Legislature Has a Vast Amount of Important Work to Consider.

### ELECTION CODE QUESTION

And the School Code Two Matters Which Need to Be Settled—County Salary Bill to Be Wrestled With By the Senate.

From a Staff Correspondent.

Columbus, April 18.—With the limited time now at its disposal it is feared the legislature will be unable to dispose of some important measures which should be made laws at this session. One of the most important questions to be settled this week is that of a school code. House and senate are at variance on this proposition and it is probable a conference committee will be appointed to draft a compromise bill. The senate has placed itself on record as favoring the elastic school board plan, while the house has declared for small boards at large. If they cannot reach an agreement Ohio will have to worry along for two years without a school code.

Another matter is an election code. Other prominent measures to receive consideration are the Moore banking bill, the fish and game bill and the bill to double the length of the term of judges of the supreme court. The present term is six years. The senate will pass the general appropriation bills and will wrestle with a county salary bill. This fixes a maximum salary of \$8,000 for county auditors, treasurers, probate judges, sheriffs, recorders and clerks of the common pleas and circuit courts hereafter elected in counties of over 100,000 population. It is stated that the senate will pass the measure and that it will also go through the house.

A program has been mapped out whereby it is hoped to reach and dispose of all the measures whose enactment into laws is regarded as imperative. The state franchise bill is doomed. The Hanna memorial services will be held on April 21. The entire day will be given over to the exercises. This cuts one working day out of the calendar. It will be the busiest week of the session.

## BRADFORD'S DEATH DUE TO CARELESSNESS

Decision of Justice J. N. Rose Is That the Man Alone Was Negligent.

'Squire J. N. Rose, upon the solicitation of the officials of the Pottery Mining & Milling company, this morning held a court of inquiry for the purpose of thoroughly investigating the circumstances surrounding the death of Willis C. Bradford the man who was killed in the plant Saturday morning. The justice, after examining a number of witnesses, decided that the death was wrought by an accident, pure and simple.

The investigation was desired by the officials of the company because no one saw the accident and none were positive how it occurred. The justice says that the testimony adduced at the hearing leads him to believe that Bradford through negligence was caught on the shaft and thrashed to his death. The engineer at the plant testified that he had warned Bradford time and again not to carry a sack on his arm while oiling the machinery. Bradford used the sack to wipe off the dirt and oil. The same sack was found twisted around the shaft, and it is the verdict of all who investigated that the sack was wrenched from the arm of Bradford and in his attempt to draw it back his arm was also caught, drawing him to death.

### COUNCIL MAY ACT

Demanding That the Injunction Against the Railroad Company Be Enforced.

City Solicitor Davidson will likely be instructed by the councilmen at their special meeting tomorrow evening to proceed to have the injunction against double tracking which is pending in Lisbon against the railroad company enforced. The company has not accepted the ordinance passed some weeks ago by council and the members feel that immediate action is imperative.

## TRIED TO CHEAT THE CALLOWS

A Car Barn Bandit Attempts Suicide in Prison at Chicago.

Chicago, April 18.—(Special.)—Peter Neidermeyer, one of the car barn bandits, who is to be hanged Friday, was found unconscious in his cell this morning. He had attempted suicide by eating matches and cutting an artery in his wrist. He may recover.

### Followed By a Thug.

Mrs. Percy Frost, of Sixth street, while on her way home at night from Davidson's grocery, was pursued by a suspicious character, who turned and fled as two men approached.

## THE BRIDGE BILL LIKELY TO PASS

Newell Company Makes a Liberal Proposition to the City.

### BUT ONE DISSENTING VOTE

Every indication is favorable for the passage of the ordinances presented by the Newell Bridge company at the special meeting of council to be held tomorrow evening. There is but one councilman known to be against the measures, and in case he refuses to change his attitude before the meeting, Mr. Smith, the East End solon, will be implored to be present, thereby assuring six votes, enough to suspend the rules and pass the ordinances.

Four councilmen, Horwell, Bullock, Cannon and Barlow, met at the office of Solicitor Davidson Saturday night to decide definitely upon the proposition. Messrs. J. G. Lee and W. E. Wells, of the bridge committee, were also present. The ordinances were reviewed carefully, several minor changes made, and Cannon excepted. It was unanimously decided to grant the request of the company.

The company asks that one lot in the West End, which leads to the approach of the bridge, be dedicated as a street, and that the company be given the right to occupy it. In return the company agrees to maintain the street forever and to make a beauty spot out of the adjoining lot, which is also the property of the city and to remove the bodies, 60 in number, to other cemeteries. Mr. Cannon thinks that the company ought to pay \$500 for the lot. The other councilmen take a more conservative stand, holding that the bridge will be worth thousands of dollars to East Liverpool; that the company in agreeing to remove the bodies will assume an obligation of \$1,500, the cost of removing a body being \$25; that it will be a good proposition to get the agreement of the company to the effect that it will keep and maintain the street; that to sell the lot for \$500 and then be compelled to remove the bodies would be foolish, and that their constituents will not be satisfied unless the ordinances pass.

## MEMORIAL SERVICE BY KNIGHTS OF COLUMBUS

Impressive Exercises Held at the Wellsville City Hall Last Evening.

Councilman William O'Grady delivered the memorial address at the memorial service held in the auditorium of Wellsville city hall last evening by Council No. 507, Knights of Columbus. Several hundred people attended.

The service was marked for its simplicity. Others who spoke were Rev. Father Crotty, of Wellsville; Rev. Father Mahan, of East Liverpool; and Thomas J. Duffy, of the Brotherhood of Operative Pottery.

The service in the main was honoring the memory of Engineer Jacob F. Maas, who was killed in the wreck of bridge 55 recently. Thrice was his name called last evening, after which "Absent" was noted on the records of the council. Those who sang were J. M. Grafton, East Liverpool; Charles Connor and William Whalen, of Wellsville.

The council held its regular meeting in Aten's hall yesterday afternoon, and three applicants for membership were considered.

## GAMES WERE INTERRUPTED BY VISITS OF OFFICERS

Members of the Police Force Improved the Time on Sunday by Raiding Three Saloons.

### HOW A CUSTOMER UNCONSCIOUSLY HELPED

Love laughs at locksmiths and so do East Liverpool policemen. A quartet of them on Saturday night demonstrated that four doors between a gambling den and the outer world are not barriers to the enforcement of the law, and they say that they will unearth every poker dive in the city even if they are compelled to employ an excavating gang of the Pennsylvania railroad to accomplish the desired end.

Instructed to fill the "coop" with law breakers, Officers McDermott, Dunn, Aufderheide and Mahoney started early to carry out the order. Drunks were a secondary consideration to them and were passed up for richer hauls. The saloon of "Ole" Olson in Summit lane was the first visited. The time was 10:30.

When they entered the place everything was serene. There was no sign of a poker game in the bar room, and upstairs there was nothing doing, that story being used as a living apartment. The sleuths were not to be fooled, however, and they kept nosing around until a trap door behind the bar was located. They opened it and started to descend. Down, down they went until they thought they were in the bowels of the earth. After reaching the bottom they struck a fresh trail and in the dim distance heard the voice of a man say, "That's good."

This gave them a cue, and rushing farther back they ran against an ideal rendezvous. There was nothing then to stop them but a padlock and it amounted to naught. In the dug-out were five men caught like rats in a trap.

An unconditional surrender was demanded and the quintet gave fictitious names and promised to appear before the mayor today for a hearing. Olson is charged with permitting a gambling room to be operated in his saloon and the other four will answer to playing poker. Olson denies that he had any connection whatever with the place and it was suggested this morning that perhaps the route to the "hole in the wall" started at the base of the Diamond pump.

Jimmie Cain, on Third street, was caught red-handed and in a manner most amusing. Officer McDermott headed the police squadron in this instance.

## PARKER SUPPORTERS IN THE MAJORITY

Democrats of This County Appear to Favor the Judge for President.

Parker sentiment seems to prevail among the Columbiana county Democrats. At the caucus at Salem Saturday night, Parker men were elected to the Alliance congressional convention as follows: George Lantz, F. L. Rollins, C. F. Smith, Emory Shoe, A. W. Schiller, O. J. Asty and W. H. Fultz.

Leetonia elected the following delegation: Uriah Metz, Michael Gottschald, Michael Ready, James Cavanaugh. All are Parker men and all are for C. F. Smith, of Salem, for national delegate.

T. S. Arnold, of Leetonia, a candidate for national delegate, claims 25 to 28 of the 42 delegates from the county. Smith, of Salem, claims all.

At Lisbon the following were nominated: Delegates—C. P. Leonard, W. H. Spence, Bert Burns, W. S. Potts. Alternates—John Robinson, Josiah Bennett, Lee Deemer, Perry Mayhew. The delegates go to the convention uninstructed.

From Washington township Charles Montooth and James McSwiggen were chosen. They are said to be for Arnold for delegate.

### SCALE AGREED UPON

Salineville District Miners Consent to the Proposed Reduction in Wages.

Salineville district miners in convention with operators have agreed to the new scale which is to be in force for two years and calls for a reduction of 5.55 per cent in wages. About 900 men are affected by the decision.

stance. He knew there was something doing but he was not sure where it was located and a little reconnoitering was necessary. Stealthily the officers approached a door at the rear of the saloon, leading through a dark hallway, nobody knew where. They felt that they were a good distance from the evil-doers, however, and did not know just how to effect an entrance.

A "greeny" from across the river helped him out of the predicament. Accompanied by a friend, he arrived on the scene and walked right into the midst of the policemen. The spot was pitch dark and he did not recognize the helmets or the brass buttons.

McDermott saluted him and he replied by asking if there was anything doing inside. The officer told him there was and that it was a big game. The fellow then became anxious to get in and wanted to know why the four unknown were standing out in the cold. McDermott told him he couldn't get in. The man pushed the policemen out of the way and said he would bet that he could wake 'em up.

Rapping vigorously two or three times to no avail he called the game keeper by name and in a minute there was a rush for the door. House was the name of the proprietor. He opened the door and simultaneously McDermott grabbed the West Virginian, shoved him to one side and the officers made one grand run back through the house. They found seven men besides the proprietor and placed them all under arrest.

Though the officers felt positive the men had been playing poker, they had no proof and a charge was preferred against Cain for keeping his saloon open on Sunday and the others were charged with loitering. Cain appeared this morning and pleading guilty, was fined \$50 and costs. He stood good for the rest of the bunch, agreeing to pay the total amount, \$88.

The saloon of Fred Kourber on Walnut street was entered by Officer McDermott, who found a number of men enjoying a game of dice. Such practices are contrary to the laws of the city and a charge was preferred against the proprietor and the men. They will appear this evening.

## CRUSHED TO DEATH BETWEEN CARS

WALTER S. WOODS, OF WELLSVILLE, KILLED AT WORK.

An Esteemed Railroad Employee the Victim of a Fatal Accident.

Walter S. Woods, conductor on the sewer pipe freight train, was crushed between cars while making a coupling near Empire Saturday afternoon and died the same evening at the Gill hospital in Steubenville.

He lived back of Fourteenth street in Wellsville and was a sober and industrious railroad man. He is survived by a wife and an infant child. The remains were sent to Burnsfield, W. Va., his former home.

### THREE MEN HURT

By Falling from a Street Car, a Railing Having Given Away.

While riding on a street car to Chester last evening, Arthur Steel and James Stewart, of that town, and William Thomas, of East Liverpool, were thrown off at Second and Virginia avenues, and two of them badly hurt.

They were standing on the lower step of the car and it was going rapidly. Steel was the worst injured, having a bad cut on the head.

### Dr. Nevin Dead.

Negley, April 18.—(Special.)—Dr. Nevin, one of the best known and highly respected residents of Negley, died at 7:30 Sunday morning of liver trouble. He was born in Ballington, Pa., about 47 years ago, coming here five years ago. He leaves a wife and one child.

### BUT ONE DISSENTING VOTE

Every indication is favorable for the passage of the ordinances presented by the Newell Bridge company at the special meeting of council to be held tomorrow evening. There is but one councilman known to be against the measures, and in case he refuses to change his attitude before the meeting, Mr. Smith, the East End solon, will be implored to be present, thereby assuring six votes, enough to suspend the rules and pass the ordinances.

Four councilmen, Horwell, Bullock, Cannon and Barlow, met at the office of Solicitor Davidson Saturday night to decide definitely upon the proposition. Messrs. J. G. Lee and W. E. Wells, of the bridge committee, were also present. The ordinances were reviewed carefully, several minor changes made, and Cannon excepted, it was unanimously decided to grant the request of the company.

The company asks that one lot in the West End, which leads to the approach of the bridge, be dedicated as a street, and that the company be given the right to occupy it. In return the company agrees to maintain the street forever and to make a beauty spot out of the adjoining lot, which is also the property of the city and to remove the bodies, 60 in number, to other cemeteries. Mr. Cannon thinks that the company ought to pay \$500 for the lot. The other councilmen take a more conservative stand, holding that the bridge will be worth thousands of dollars to East Liverpool; that the company in agreeing to remove the bodies will assume an obligation of \$1,500, the cost of removing a body being \$25; that it will be a good proposition to get the agreement of the company to the effect that it will keep and maintain the street; that to sell the lot for \$500 and then be compelled to remove the bodies would be foolish, and that their constituents will not be satisfied unless the ordinances pass.

## MEMORIAL SERVICE BY KNIGHTS OF COLUMBUS

Impressive Exercises Held at the Wellsville City Hall Last Evening.

Councilman William O'Grady delivered the memorial address at the memorial service held in the auditorium of Wellsville city hall last evening by Council No. 507, Knights of Columbus. Several hundred people attended.

The service was marked for its simplicity. Others who spoke were Rev. Father Crotty, of Wellsville; Rev. Father Mahan, of East Liverpool; and Thomas J. Duffy, of the Brotherhood of Operative Potters.

The service in the main was honoring the memory of Engineer Jacob F. Maas, who was killed in the wreck of bridge 55 recently. Thrice was his name called last evening, after which "Absent" was noted on the records of the council. Those who sang were J. M. Grafton, East Liverpool; Charles Connor and William Whalen, of Wellsville.

The council held its regular meeting in Aten's hall yesterday afternoon, and three applicants for membership were considered.

## GAMES WERE INTERRUPTED BY VISITS OF OFFICERS

Members of the Police Force Improved the Time on Sunday by Raiding Three Saloons.

### HOW A CUSTOMER UNCONSCIOUSLY HELPED

Love laughs at locksmiths and so do East Liverpool policemen. A quartet of them on Saturday night demonstrated that four doors between a gambling den and the outer world are not barriers to the enforcement of the law, and they say that they will unearth every poker dive in the city even if they are compelled to employ an excavating gang of the Pennsylvania railroad to accomplish the desired end.

Instructed to fill the "coop" with law breakers, Officers McDermott, Dunn, Auferheide and Mahoney started early to carry out the order. Drunks were a secondary consideration to them and were passed up for richer hauls. The saloon of "Ole" Olson in Summit lane was the first visited. The time was 10:30.

When they entered the place everything was serene. There was no sign of a poker game in the bar room, and upstairs there was nothing doing, that story being used as a living apartment. The sleuths were not to be fooled, however, and they kept nosing around until a trap door behind the bar was located. They opened it and started to descend. Down, down they went until they thought they were in the bowels of the earth. After reaching the bottom they struck a fresh trail and in the dim distance heard the voice of a man say, "That's good."

This gave them a cue, and rushing farther back they ran against an ideal rendezvous. There was nothing then to stop them but a padlock and it amounted to naught. In the dug-out were five men caught like rats in a trap.

An unconditional surrender was demanded and the quintet gave fictitious names and promised to appear before the mayor today for a hearing. Olson is charged with permitting a gambling room to be operated in his saloon and the other four will answer to playing poker. Olson denies that he had any connection whatever with the place and it was suggested this morning that perhaps the route to the "hole in the wall" started at the base of the Diamond pump.

Jimmie Cain, on Third street, was caught red-handed and in a manner most amusing. Officer McDermott headed the police squadron in this instance.

## PARKER SUPPORTERS IN THE MAJORITY

Democrats of This County Appear to Favor the Judge for President.

Parker sentiment seems to prevail among the Columbiana county Democrats. At the caucus at Salem Saturday night, Parker men were elected to the Alliance congressional convention as follows: George Lentz, F. L. Rollins, C. F. Smith, Emery Shoe, A. W. Schiller, O. J. Astry and W. H. Fultz.

Leontia elected the following delegation: Uriah Metz, Michael Gottschald, Michael Redy, James Cavanaugh. All are Parker men and all are for C. F. Smith, of Salem, for national delegate.

T. S. Arnold, of Leontia, a candidate for national delegate, claims 25 to 28 of the 42 delegates from the county. Smith, of Salem, claims all.

At Lisbon the following were nominated: Delegates—C. P. Leonard, W. H. Spence, Bert Burns, W. S. Potts. Alternates—John Robinson, Josiah Bennett, Lee Deemer, Perry Mayhew. The delegates go to the convention uninstructed.

From Washington township Charles Montooth and James McSwiggen were chosen. They are said to be for Arnold for delegate.

### SCALE AGREED UPON

Salineville District Miners Consent to the Proposed Reduction in Wages.

Salineville district miners in convention with operators have agreed to the new scale which is to be in force for two years and calls for a reduction of 5.55 per cent in wages. About 900 men are affected by the decision.

He knew there was something doing but he was not sure where it was located and a little reconnoitering was necessary. Stealthily the officers approached a door at the rear of the saloon, leading through a dark hallway, nobody knew where. They felt that they were a good distance from the evil-doers, however, and did not know just how to effect an entrance.

A "greeny" from across the river helped him out of the predicament. Accompanied by a friend, he arrived on the scene and walked right into the midst of the policemen. The spot was pitch dark and he did not recognize the helmets or the brass buttons.

McDermott saluted him and he replied by asking if there was anything doing inside. The officer told him there was and that it was a big game. The fellow then became anxious to get in and wanted to know why the four unknown were standing out in the cold. McDermott told him he couldn't get in. The man pushed the policemen out of the way and said he would bet that he could wake 'em up.

Rapping vigorously two or three times to no avail he called the game keeper by name and in a minute there was a rush for the door. House was the name of the proprietor. He opened the door and simultaneously McDermott grabbed the West Virginian, shoved him to one side and the officers made one grand run back through the house. They found seven men besides the proprietor and placed them all under arrest.

Though the officers felt positive the men had been playing poker, they had no proof and a charge was preferred against Cain for keeping his saloon open on Sunday and the others were charged with loitering. Cain appeared this morning and pleading guilty, was fined \$50 and costs. He stood good for the rest of the bunch, agreeing to pay the total amount, \$88.

The saloon of Fred Kourber on Walnut street was entered by Officer McDermott, who found a number of men enjoying a game of dice. Such practices are contrary to the laws of the city and a charge was preferred against the proprietor and the men. They will appear this evening.

## CRUSHED TO DEATH BETWEEN CARS

WALTER S. WOODS, OF WELLSVILLE, KILLED AT WORK.

An Esteemed Railroad Employee the Victim of a Fatal Accident.

Walter S. Woods, conductor on the sewer pipe freight train, was crushed between cars while making a coupling near Empire Saturday afternoon and died the same evening at the Gill hospital in Steubenville.

He lived back of Fourteenth street in Wellsville and was a sober and industrious railroad man. He is survived by a wife and an infant child. The remains were sent to Burnsfield, W. Va., his former home.

### THREE MEN HURT

By Falling from a Street Car, a Railing Having Given Away.

While riding on a street car to Chester last evening, Arthur Steel and James Stewart, of that town, and William Thomas, of East Liverpool, were thrown off at Second and Virginia avenues, and two of them badly hurt.

They were standing on the lower step of the car and it was going rapidly. Steel was the worst injured, having a bad cut on the head.

Dr. Nevin Dead.  
Negley, April 18.—(Special.)—Dr. Nevin, one of the best known and highly respected residents of Negley, died at 7:30 Sunday morning of liver trouble. He was born in Ballington, Pa., about 47 years ago, coming here five years ago. He leaves a wife and one child.

### CHEAP GERMAN WARE.

When an East Liverpool pottery manufacturer, passing along the streets of the city, sees in the windows of certain stores common articles of pottery were marked for sale at a price less than he can manufacture them, he very naturally pauses for reflection. That German ware is sold here for less than it can be manufactured in our potteries is an actual fact. Just how it is done is known to those in the business who have had to compete with the foreign manufacturers and only last week when George Faist visited the city they had a practical demonstration of it. Mr. Faist is from Breslau, Germany, and is one of the owners of a pottery plant employing 1,500 persons, men, women, boys and girls. He has been making a tour of America and naturally was attracted to the pottery center of America. One of the plants visited by Mr. Faist was the Dresden pottery. Upon request he was shown through the pottery by H. P. Knoblock, secretary of the company.

Mr. Knoblock is one of the potters who have seen the German ware advertised for sale and as he understands the German language he was able to converse freely with his visitor. Naturally interested in the conditions surrounding the trade in the two countries Mr. Knoblock was as much interested in the statements of the visitor concerning his own plant as the visitor was in what he saw in Mr. Knoblock's.

When they started through the plant it was in the middle of the afternoon and many of the operatives having finished their day were leaving.

"Where are those fellows going," asked the visitor. "Are they coming back?"

Physician and Surgeon,

Office and residence 131 Fifth St., in Capt. Myers' Residence. Office hours, 9 to 12 a. m., 1 to 5 p. m. and 7 to 9 p. m.

When Mr. Knoblock explained the German ware was thoroughly astonished. He told Mr. Knoblock that his workmen started at 6 in the morning and worked until 6 at night, with an hour for dinner. Sentinels are maintained at the gates and the workers could not leave if they cared to. Answering Mr. Knoblock's questions the visitor said that the girls and boys made from 25 to 30 cents a day and that the men made from 50 to 80 cents. The company owns the houses occupied by two-thirds of their employees and it rents them for \$24 a year. A family is allotted two rooms, and in some cases there are as high as 10 and 12 children in a family.

Mr. Knoblock also inquired about the cost of living there and learned that food stuffs are not much cheaper than they are in East Liverpool, the difference in the cost of living, except rents, being wholly out of proportion to the difference in wages.

The Breslau pottery is one of the largest in Germany and makes all grades of ware. The equipment is comparatively modern and according to Mr. Faist the workmen are as skilled and work as rapidly, the decorators, if anything, excelling in speed. Girls operate jiggers and are generally employed throughout the clay shops. A great deal of casting is done and cheaper than the same articles can be pressed here. Decorated ware is fired in revolving kilns, an experiment that was tried at the Dresden plant some time ago without success. In the general ware kilns each piece is placed in a sagger to itself, a method that would bankrupt the local manufacturers.

Mr. Faist was much pleased at some of the methods used here, particularly with the gas for kiln firing. It is not likely, however, that he will move his plant to East Liverpool, as he can make his ware in Germany and sell it for less than the cost of manufacture here and have the advantage of living in the vaterland.

### BUILDING THE PLANT.

The Weller pottery that is now being built at the Louisiana Purchase Exposition at St. Louis is a credit to the industry. The buildings are now almost completed and are about 40 feet in width by 150 feet in length. They are the regulation exposition buildings coated on the outside and covered with cement. The buildings alone cost over \$10,000 and when completed the plant, stocked and ready for operation, will stand Mr. Weller from \$25,000 to \$30,000. The pottery will have one kiln, which will be built entirely of pressed brick, and on that account alone will present a fine appearance. Mercer Bros., of Zanesville, O., are now engaged erecting it.

Ware will be manufactured and decorated right in the pottery. The clay will be brought into the manufacturing end of the plant at the left, and as it is made will pass to the back part of the pottery. The works will be supplied with a complete outfit throughout the duration of the exposition. R. L. Cawood and a large force of workmen from this city are now hard at work installing the machinery and expect to complete the work by the first of next week.

### MAMMOTH PIPE.

The American Sewer Pipe company exhibit at the St. Louis Exposition will consist of what is possibly the largest section of clay sewer pipe ever produced in the Ohio valley. It is 56 inches in diameter and weighs 2,200 pounds. There will also be on exhibition at the great fair quite a variety of pottery were made at the several Ohio valley factories. In fact, it is understood that this particular section of the country is to be well represented at the exposition, especially by the exhibits of its manufactures.

## SCROFULA A DISEASE WE INHERIT.

Scrofula manifests itself in many ways. Swelling of the glands of the neck and throat, Catarrh, weak eyes, white swelling, offensive sores and abscesses, skin eruptions, loss of strength and weakness in muscles and joints.

It is a miserable disease and traceable in almost every instance to some family blood taint. Scrofula is bred in the bone, is transmitted from parent to child, the seeds are planted in infancy and unless the blood is purged and every atom of the taint removed Scrofula is sure to develop at some period in your life.

Not remedy equals S. S. S. as a cure for Scrofula. It cleanses and builds up the blood, makes it rich and pure, and under the tonic effects of this great Blood Remedy, the general health improves, the digestive organs are strengthened, and there is a gradual but sure return to health. The deposit of tubercular matter in the joints and glands is carried off as soon as the blood is restored to a normal condition, and the sores, eruptions, and other symptoms of Scrofula disappear.

S. S. S. is guaranteed purely vegetable and harmless; an ideal blood purifier and tonic that removes all blood taint and builds up weak constitutions. Our physicians will advise without charge, all who write us about their case. Book mailed free.

## 50c. Bottle Free.

When Medicine Fails, Try Liquezone—We'll Pay for it.

Medicine must fail in a germ trouble, because medicine never kills inside germs. Any germ-killing drug is a poison to you, and it cannot be taken internally.

Liquezone is the only way known to kill germs in the body without killing the tissues, too. It does in a germ trouble what no drugs, no skill in the world, can accomplish without it. To prove this—if you need it—we will gladly pay for a bottle and give it to you to try.

### Acts Like Oxygen.

Liquezone is the result of a process which, for more than 20 years, has been the constant subject of scientific and chemical research. Its virtues are derived solely from gas, made in large part from the best oxygen producers. By a process requiring immense apparatus and 14 days' time, these gases are made part of the liquid product.

The result is a product that does what oxygen does. Oxygen gas, as you know, is the very source of vitality. Liquezone is a vitalizer with which no other known product can compare. But germs are vegetables; and Liquezone—like an excess of oxygen—is deadly to vegetable matter. Yet this wonderful product which no germ can resist, is, to the human body, the most essential element of life.

### We Paid \$100,000

For the American rights to Liquezone—the highest price ever paid for similar rights on any scientific discovery. We did this after testing the product for two years, through physicians and hospitals, in this country and others.

That price was paid because Liquezone does in germ troubles what all the drugs, all the skill in the world, cannot accomplish without it. It carries into the blood a powerful yet harmless germicide, to destroy at once and forever the cause of any germ disease. And no man knows another way to do it. Liquezone is so certain that we publish on every bottle an offer of \$10,000 for a disease germ that it cannot kill.

### Germ Diseases.

These are the known germ diseases. All that medicine can do for these troubles is to help Nature overcome the germs, and such results are indirect and uncertain. Liquezone kills the germs, wherever they are, and the results are inevitable. By destroying the cause of the trouble, it invariably ends the disease, and forever.

As follows:—  
Asthma, Bronchitis, Croup, Hoarseness, Laryngitis, Measles, Mumps, Pertussis, Whooping Cough, Sore Throat, Stomach Disorders, Typhoid Fever, Yellow Fever, Cholera, Dysentery, Eczema, Erysipelas, Gonorrhea, Gleet, Rheumatism, Skin Diseases, Scrofula, Syphilis, Throat Troubles, Tumors, Ulcers, Venereal Diseases, Women's Diseases.

Hood's Sarsaparilla permanently cured J. G. Hines, Franks, Ill., of eczema, from which he had suffered for some time; and Miss Alvina Walter, Box 212, Algona, Wis., of pimples on her face and back and chafed skin on her body, by which she had been greatly troubled. There are more testimonials in favor of Hood's than can be published.

Hood's Sarsaparilla promises to cure and keeps the promise.

### FROM THE CHILD

to the adult all can and do appreciate "good things" in the eatable line. That is why young and old visit this store so often and so frequently recommend it to their friends. What we have principally in mind is to provide food fit to eat; what we have in this store comes under the same class. For anything first-rate in the grocery line come here.

"The Home of Quality,"

When Mr. Knoblock explained the German was thoroughly astonished. He told Mr. Knoblock that his workmen started at 6 in the morning and worked until 6 at night, with an hour for dinner. Sentinels are maintained at the gates and the workers could not leave if they cared to. Answering Mr. Knoblock's questions the visitor said that the girls and boys made from 25 to 30 cents a day and that the men made from 50 to 80 cents. The company owns the houses occupied by two-thirds of their employees and it rents them for \$24 a year. A family is allotted two rooms, and in some cases there are as high as 10 and 12 children in a family.

Mr. Knoblock also inquired about the cost of living there and learned that food stuffs are not much cheaper than they are in East Liverpool, the difference in the cost of living, except rents, being wholly out of proportion to the difference in wages.

The Breslau pottery is one of the largest in Germany and makes all grades of ware. The equipment is comparatively modern and according to Mr. Faust the workmen are as skilled and work as rapidly, the decorators, if anything, excelling in speed. Girls operate jiggers and are generally employed throughout the clay shops. A great deal of casting is done and cheaper than the same articles can be pressed here. Decorated ware is fired in revolving kilns, an experiment that was tried at the Dresden plant some time ago without success. In the general ware kilns each piece is placed in a sagger to itself, a method that would bankrupt the local manufacturers.

Mr. Faust was much pleased at some of the methods used here, particularly with the gas for kiln firing. It is not likely, however, that he will move his plant to East Liverpool, as he can make his ware in Germany and sell it for less than the cost of manufacture here and have the advantage of living in the waterland.

### BUILDING THE PLANT.

The Weller pottery that is now being built at the Louisiana Purchase Exposition at St. Louis is a credit to the industry. The buildings are now almost completed and are about 40 feet in width by 150 feet in length. They are the regulation exposition buildings coated on the outside and covered with cement. The buildings alone cost over \$10,000 and when completed the plant, stocked and ready for operation, will stand Mr. Weller from \$25,000 to \$30,000. The pottery will have one kiln, which will be built entirely of pressed brick, and on that account alone will present a fine appearance. Mercer Bros., of Zanesville, O., are now engaged erecting it.

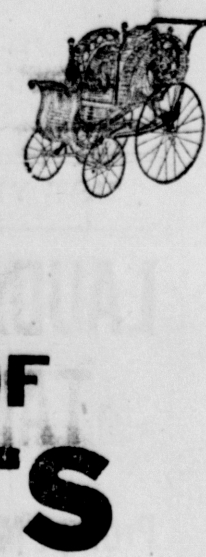

Ware will be manufactured and decorated right in the pottery. The clay will be brought into the manufacturing end of the plant at the left, and as it is made will pass to the back part of the pottery. The works will be supplied with a complete outfit throughout the duration of the exposition. R. L. Cawood and a large force of workmen from this city are now hard at work installing the machinery and expect to complete the work by the first of next week.

**MAMMOTH PIPE.**  
The American Sewer Pipe company exhibit at the St. Louis Exposition will consist of what is possibly the largest section of clay sewer pipe ever produced in the Ohio valley. It is 56 inches in diameter and weighs 2,200 pounds. There will also be on exhibition at the great fair quite a variety of pottery ware made at the several Ohio valley factories. In fact, it is understood that this particular section of the country is to be well represented at the exposition, especially by the exhibits of its manufactures.

**SHIPPED TO RACINE**

Funeral Services Will Be Held There Under Auspices of the Masonic Lodge.

The body of Willis C. Bradford, who was killed early Saturday morning at the flint mill, will be shipped to Racine on the steamer Keystone State tonight. Mrs. Bradford and a brother of the deceased, who arrived here yesterday, will accompany the remains. The funeral services and interment will take place there.

Mrs. Bradford, who has been almost prostrated since the awful accident, will not return to this city. She has disposed of most of her household goods for this reason. Neighbors have shown her every kindness, for which she returns thanks.

Mr. Bradford was a member of the Masonic lodge at Racine and the order will have charge of the funeral services.

### ATTENDING PRESBYTERY

Rev. N. M. Crowe and George Wilson Left Today for Meeting at New Philadelphia.

Rev. N. M. Crowe, of the Second Presbyterian church, and George Wilson left this afternoon for New Philadelphia, where they will attend the spring meeting of the Steubenville presbytery. The former is the ministerial delegate and the latter the lay delegate from the Second church. The first session of the presbytery will be held this evening and the business will be concluded tomorrow.

Rev. Mr. Crowe will present the report from his church printed in this column a few days ago. The report shows the best year's work, spiritually and materially, in the history of the church.

## FALSE DOCTRINES DO NOT SAVE MEN

What Is Required of True Worshipers and True Christian People.

### IN FAITH IS SALVATION

An Able Sermon By Rev. J. G. Reinartz at St. John's Lutheran Church. Services in Other Churches of the City Yesterday.

Rev. J. G. Reinartz at St. John's Lutheran church last evening preached an earnest and able sermon on true faith, taking as his text Amos 4:12, "Therefore thus will I do unto thee, O Israel; and because I will do unto thee, O Israel, and because I will do unto thee, O Israel, prepare to meet thy God, O Israel." The music was especially good, the choir singing two beautiful anthems in an excellent manner.

The pastor, speaking on the right preparation to meet God after death, said:

"There we learn, if we would be prepared to meet God we must first of all see that we have the right and true worship of God. Only His true worship is pleasing to God, whilst by a false worship we can never come to Him. And what is the true worship of God? Surely none other than that which He has commanded in His word. If we continue in the word of God we have the true worship of God, but if we in anything depart from the word of God we have in so far a false or an idle worship. Every worship which is in violation of God's revealed word is a false worship, and all worship without the word of God is vain and idle.

"In vain," says the Lord, "they do worship me, teaching for doctrines the commandments of men." And false worship is not only in vain, it is a sin, an offense against God; for so the Lord says: "Come to Bethel, and transgress; at Gilgal multiply transgressions." With their worship at Bethel and Gilgal the Israelites were only multiplying transgressions, because God had not commanded this worship.

"Say not, if a man would only worship God it would be well pleasing and it would make no difference even though it was not so exactly in agreement with the word of scripture; for all worship without the word of God is only multiplying transgression. Hence we must make certain that we are not walking after the thoughts of our own heart and are not basing our faith on the doctrines of men, as Israel followed the teaching of Jeroboam. We must make sure that we have the truth of God and are worshipping Him according to His word, and we must not contaminate ourselves with any false worship.

"Errors or false doctrines do not save; they burn up like stubble, as the Lord says: 'Every plant which my heavenly Father hath not planted shall be rooted up.' Never must we permit anything to be imposed upon us as divine truth which the bible does not say in unmistakable terms, neither must we ever reject anything which the bible does clearly teach. Being positively certain that we have the truth, knowing what is the true worship of God according to His word, we must furthermore see that we are also true worshipers of God from heart and soul. It is not enough to have the knowledge of the truth in the understanding and memory, we must also apply it unto ourselves and must practice it in our every day life, walk and conversation.

"Now, what does the true worship of God require of man? The sum and summary is repentance and faith; for

Funeral Services Will Be Held There Under Auspices of the Masonic Lodge.

The body of Willis C. Bradford, who was killed early Saturday morning at the flint mill, will be shipped to Racine on the steamer Keystone State tonight. Mrs. Bradford and a brother of the deceased, who arrived here yesterday, will accompany the remains. The funeral services and interment will take place there.

Mrs. Bradford, who has been almost prostrated since the awful accident, will not return to this city. She has disposed of most of her household goods for this reason. Neighbors have shown her every kindness, for which she returns thanks.

Mr. Bradford was a member of the Masonic lodge at Racine and the order will have charge of the funeral services.

For Infantry Director—George W. Armstrong.

William B. McCord, for the past three years editor of the Salem Daily News and for nearly a third of a century an active newspaper man of Columbiana county, has resigned his present position and will retire from it on May 1. Mr. McCord has worked long, arduously and ably in a profession where the rewards are usually meagre. While his journalistic brethren will regret his retirement, they recognize the fact that he has richly earned a rest, and hope that the good fortune he so richly merits may await him, whatever his line of future effort.

The verdict of the Allegheny county coroner's jury on the Harwick mine disaster holds the state mine inspector and the mine superintendent guilty of murder. While it is extremely unlikely that the courts will so hold, the fact that culpable negligence existed somewhere is plain, and the investigation may result in great good by impressing on men who hold the lives of hundreds of men in their care the necessity of erring on the side of cautiousness rather than of rashness.

When the czar begins to carry out his threat of shooting newspaper men as spies he will discover that the Japs are not his only enemies, by a long shot. There are several millions of people on both sides of the water who have a mighty interest in the fellows whom the Russian despot professes to despise.

It is now 200 years since the first newspaper was established in America. Today there are more than 21,000 journals published in this country, which exert an influence of which the pioneer publishers never dreamed and constitute an industry employing millions of capital and thousands of laborers.

The Ohio senate has passed a street cleaning bill which gives the board of public service a freer hand in dealing with an important problem. It is welcomed in the big cities and may be found useful in East Liverpool.

The Bryanites of Nebraska are less numerous and influential than they used to be. At present it appears doubtful if there is enough of them to send the twice defeated candidate to St. Louis as a delegate.

The kingdom of Tibet is destined to go out of the hermit business. It does not want an open door, but Great Britain does, and her wishes count more than the hermit nation's.

### PUNY CHILDREN

Parents Should Know How to Keep Children Well—Expert Advice By An East Liverpool Druggist.

"We do not wish to blame any of our friends for that which they cannot help, but sometimes when we see delicate and puny children, we cannot help feeling that parents are neglectful," said Mr. Charles T. Larkins, during a recent interview.

"If we could only make all fathers and mothers in East Liverpool regard what we say, especially if their little ones are delicate, how glad they would be afterward. They can make their children strong and well. They can lay a foundation stone in their little lives that will give them joy and happiness in years to come and they will become strong and hearty men and women, if they will only believe what we say about Vinol and follow our advice."

Remember Vinol contains all the active curative principles taken directly from fresh cods' livers without grease or oil, and its taste is delicious, and that is what gives it such power to assist the stomach of the little ones to properly assimilate the food which they eat. It is the means by which rich, red blood is made; strong bone structure is built; hard, firm, flesh tissue is created, and healthy, sound nerves maintained.

Mrs. Jessie Perse, 169 Newman street, Mansfield, O., says:

"I wish to add a few words of praise for Vinol. My little boy was very much run down, so much so that he had to leave school. He really was a mere shadow. I decided to give him Vinol and he is rapidly gaining flesh. I wish to recommend Vinol to every mother who has puny, ailing children."

Not only for children, but for adults do we recommend Vinol as the greatest strength creator and rebuilder of health, without reservation, and stand prepared to refund all money to those who do not find absolute satisfaction in its use.—Charles T. Larkins, druggist.

Young American Soldier Will Tell His Story for the Dispatch from Military Point of View.

The most fascinating series of war stories that has yet come to America of the conflict of the Russian and the Jap is that from Will Levington Comfort in the Pittsburg Dispatch, which began two weeks ago. Mr. Comfort is a young writer who has already achieved distinction in two wars, having served with the United States troops in Puerto Rico during 1898, and then spent three years in the Philippines, where he wrote some of the most thrilling war tales that have been published since the days of the rebellion.

Mr. Comfort sees war from the standpoint of the soldier, the man in the ranks rather than the general. He will follow the march of the forces of the mikado through Korea, and his descriptions of the scenes during the actual land fighting are looked forward to with interest by those who have read his wonderful stories of the Philippine struggle. Mr. Comfort will write from the far east exclusively for the Dispatch.

### NO OVERCROWDING

AT ST. LOUIS

Ample Accommodations at Reasonable Rates.

The alarming and altogether erroneous reports which have been circulated from time to time regarding the probable over-crowding of visitors to the Exposition and the lack of accommodations may be entirely discarded, as the arrangements which have been made in the Cascade City are such as to provide good accommodations and entertainment for all who come.

Chief among the prominent hostilities which have opened their hospitable doors is the Inside Inn, situated actually within the grounds of the Exposition itself and erected under the supervision of the World's Fair management. It is three stories in height, is 400 feet wide, 800 feet long and contains 2,257 rooms in addition to its parlors and waiting rooms and a dining room and restaurant, seating 2,500. The Inside Inn is under the direct management of Mr. E. M. Statler, the well known caterer of Buffalo, who maintains a high class service for every one of his guests.

The Inside Inn is run on both the European and American plans at rates ranging from \$1.50 to \$5.50 per day, European, and from \$3 to \$7 American, including admission in both classes. The range of prices being solely controlled by the size and location of the rooms.

The advantages of a large, comfortable and thoroughly equipped, home-like hotel right inside the grounds will at once be obvious to all who remember the long, wearisome journeys so often entailed, both at the World's Fair in Chicago and at Buffalo, by those who lived some distance away from the Exposition. No admission fee other than the first one is needed, visitors being within the precincts of the exposition all the time. They thus save all loss of time, expenses of street cars, etc., and are able to devote the whole of their time to the pleasures and enjoyments of the exposition.

Reservations may be made for any date and full details regarding the many advantages of the Inside Inn may be obtained by addressing a postal card to the Inside Inn, Administration Building, World's Fair Grounds, St. Louis.

AT THE THEATER

Miss Mildred Holland and a splendid company appeared at the Grand Saturday evening in "The Triumph of an Empress." The play is not as strong as some others in which Miss Holland has starred, but just the same it affords an excellent opportunity for the lady to display her talent and many charming qualities going to make up the popular actress. Miss Holland is one of the best performers who visit the local play house and has surrounded herself with a company of unusual strength. While here Miss Holland was the guest of her friend, Mrs. H. A. McNeel, of West Market street.

The famous Brothers Byrne will produce their successful pantomimic production, "The New Eight Bells," at the opera house next Thursday evening, April 21. The tricks and scenic effects invented by the talented John y.B.Frue invented by the talented John F. Byrne are very clever and startling. The piece is entirely new and comes as fresh and crisp as a new bank note.

"Quincy Adams Sawyer," the big company en route from New York to the world's fair, in the unique rural play coming here. The fame of the New England play, "Quincy Adams Sawyer," has spread all over the country and everywhere theater-going people are on the qui vive to see it. It is booked to play an engagement here on next Saturday night, and a crowded house will doubtless show its approval of the wholesome story of New England life.

Chief among the prominent hostleries which have opened their hospitable doors is the Inside Inn, situated actually within the grounds of the Exposition itself and erected under the supervision of the World's Fair management. It is three stories in height, is 400 feet wide, 800 feet long and contains 2,257 rooms in addition to its parlors and waiting rooms and a dining room and restaurant, seating 2,500. The Inside Inn is under the direct management of Mr. E. M. Statler, the well known caterer of Buffalo, who maintains a high class service for every one of his guests.

The Inside Inn is run on both the European and American plans at rates ranging from \$1.50 to \$5.50 per day. European, and from \$3 to \$7 American, including admission in both classes. The range of prices being solely controlled by the size and location of the rooms.

The advantages of a large, comfortable and thoroughly equipped, home-like hotel right inside the grounds will at once be obvious to all who remember the long, wearisome journeys so often entailed, both at the World's Fair in Chicago and at Buffalo, by those who lived some distance away from the Exposition. No admission fee other than the first one is needed, visitors being within the precincts of the exposition all the time. They thus save all loss of time, expenses of street cars, etc., and are able to devote the whole of their time to the pleasures and enjoyments of the exposition.

Reservations may be made for any date and full details regarding the many advantages of the Inside Inn may be obtained by addressing a postal card to the Inside Inn, Administration Building, World's Fair Grounds, St. Louis.

## AT THE THEATER

Miss Mildred Holland and a splendid company appeared at the Grand Saturday evening in "The Triumph of an Empress." The play is not as strong as some others in which Miss Holland has starred, but just the same it affords an excellent opportunity for the lady to display her talent and many charming qualities going to make up the popular actress. Miss Holland is one of the best performers who visit the local play house and has surrounded herself with a company of unusual strength. While here Miss Holland was the guest of her friend, Mrs. H. A. McNeel, of West Market street.

The famous Brothers Byrne will produce their successful pantomimic production, "The New Eight Bells," at the opera house next Thursday evening, April 21. The tricks and scenic effects invented by the talented John y.B.Frue invented by the talented John F. Byrne are very clever and startling. The piece is entirely new and comes as fresh and crisp as a new bank note.

"Quincy Adams Sawyer," the big company en route from New York to the world's fair, in the unique rural play coming here. The fame of the New England play, "Quincy Adams Sawyer," has spread all over the country and everywhere theater-going people are on the qui vive to see it. It is booked to play an engagement here on next Saturday night, and a crowded house will doubtless show its approval of the wholesome story of New England life.

#### Epworth League Anniversary.

The Epworth League of the First Methodist Episcopal church will celebrate the eighteenth anniversary of its establishment by special services beginning this evening and continuing Tuesday and Wednesday evenings. The young people belonging to the society in this city will take an active part in the celebration. Rev. M. B. Pratt announced yesterday that the conference quartet would be present to assist. The quartet consists of Rev. S. P. Lloyd, of the East End; Rev. G. W. Orcutt, of East Palestine; Rev. J. O. Davidson, of Brilliant, and Rev. A. W. Gruber, of Mingo Junction. The Epworth society has spread to all parts of the country until now it has a total of nearly 2,000,000 members.

#### A Timely Suggestion.

This is the season of the year when the prudent and careful housewife replenishes her supply of Chamberlain's Cough Remedy. It is certain to be needed before the winter is over, and results are much more prompt and satisfactory when it is kept at hand and given as soon as the cold is contracted and before it has become settled in the system. In almost every instance a severe cold may be warded off by taking this remedy freely as soon as the first indication of the cold appears. There is no danger in giving it to children, for it contains no harmful substance. It is pleasant to take—both adults and children like it. Buy it and you will get the best. It always cures. Sold by Alvin B. Eulger.

#### A Free Lecture.

Rev. C. L. Wright, Ph.D., a graduate of the United Presbyterian seminary, Allegheny, will lecture in the Oakland Free Methodist church tomorrow evening on "The Song of Songs or Solomon's Song." Mr. Wright is a brilliant and able speaker and his lecture will doubtless be a treat to all who may hear him. No admission will be charged.

#### A Great Sensation.

There was a big sensation in Leesville, Ind., when W. H. Brown, of that place, who was expected to die, had his life saved by Dr. King's New Discovery for Consumption. He writes: "I endured insufferable agonies from asthma, but your New Discovery gave me immediate relief and soon thereafter effected a complete cure." Similar cures of consumption, pneumonia, bronchitis and grip are numerous. It's the peerless remedy for all throat and lung troubles. Price 50 cents and \$1. Guaranteed by Will Reed, Charles T. Larkins, C. G. Anderson, J. D. Holloway, druggists. Trial bottles free.

#### Cake and Food Sale.

The Woman's Home Missionary society of the First M. E. church will hold a cake and food sale next Saturday. The proceeds will be used for the benefit of mission work, in which the society is interested.

He served several terms as county commissioner, and has held many positions of trust.

#### Poker Game Raided.

A raid was made on a poker game in the upper part of Chester last evening by Chief Winn and Mayor Mercer. Ten men were seated about the table, and no attempt was made to escape. Their names were taken and recorded as they were given. Nearly all of the parties are said to have given fictitious names and stated they were from East Liverpool. All appeared before the mayor at 9 o'clock this morning and were given the customary fine.

#### Will Give a Dance.

A dance will be given by a social club composed of East Liverpool young men at Bloom's hall tomorrow evening. Elaborate preparations have been made for the event. Ormes Bros. orchestra will furnish the music and the attendance promises to be large.

#### CHESTER NOTES.

Louis Cunningham, a well known resident of Chester, left Saturday for Kittanning, Pa., where he will be employed.

Rev. William Curfman, of Nessley chapel, came to Chester this morning. He is calling on friends on this side and in East Liverpool.

Thomas Alexander was called to Coraopolis, Pa., Saturday evening. A number of the intimate friends of the couple were present, and the evening was pleasantly spent in music and games.

The announcement that John Newell will be a candidate for re-election to the house of delegates is denied by Mr. Newell's friends. The gentleman stated to Attorney Ingram a year ago that he would leave the field clear for him on this occasion, and as Newell is an honorable man, the story is not credited by those who know him.

#### Enterprising, Energetic Firm.

The news stand of Webb & Mercer in East End is doing a rushing business. The store is well stocked with seasonable goods and Mr. Ross Mercer, the genial manager, is always in a mood to treat his patrons courteously. A new stock of base ball goods and fishing tackle adds greatly to the attractiveness of their display window.

#### OBITUARY

##### A. N. Taylor.

Lisbon, April 18.—(Special.)—Word was received here Saturday afternoon from Massillon announcing the death at the state hospital there of Archie N. Taylor, aged about 35 years, of general paralysis. He was a son of George W. Taylor, conductor on the Lisbon railroad. He was born near Peoria.

#### CONSTIPATION CURED

Good Health Is Utterly Impossible Unless the Waste Products of the Body Are Got Rid of—A Safe, Natural, Remedy Is to Be Had From Any Druggist.

Constipation isn't pleasant to discuss—it's unpleasant from any standpoint, but if you are constipated you are sick and will be sicker unless relieved.

The first question the doctor asks is, "How are your bowels?" The first thing he does is to make them act naturally.

If there were no such thing as constipation nine-tenths of the suffering from disease would be done away with, because there would be very little disease.

Nature has provided you with bowels and kidneys that your system may be kept free from poisons. She has tied up the nutritive elements of all food in a mass of indigestible materials, from which it is freed in the process of digestion.

If this undigested portion of the food is not removed through the bowels, it simply lies in the intestines and rots, causing pain and disease.

Iron-Ox Tablets not only relieve, but permanently cure constipation.

Remember, Iron-Ox Tablets are not purgative or cathartic in their effect; they are tonic-laxative; they cure by building up the entire system. Purgatives and cathartics give only temporary relief by violent and injurious action—they do far more harm than good.

Anything which shocks the system into activity is dangerous. Do not expect immediate perceptible effects from Iron-Ox Tablets. They produce a natural, regular building up of all the functions. This takes a little time, but success is absolutely certain.

Fifty Iron-Ox Tablets in an attractive aluminum pocket case, 25 cents at druggists, or the Iron-Ox Remedy Co., Detroit, Mich.

of our shoe business gives us an enormous advantage which it is your fault if you do not share. Where there is honey there are bees. Where there is a big business there must have been some right principle back of it. We make variety the basic principle. More thousands of customers have left a store because they didn't find just what they wanted than you can hope to count. This is unnecessary. By dealing with us you can get anything. We suit everybody, and always have an immense stock to draw from. We pay just as much attention to our \$1.50, \$2.00 and \$2.50 lines as to the higher grades. We would like your trade, if not all, a share of it.

## HER BABIES' PRATTLE TORTURED HER

Run Down, Sick, Moody, Irritable—This Burdened Mother "Often Wished She Had No Children"—But Today She is Bright, Strong, Cheerful, Well, Quickly Braced—Invigorated and Cured By the Celebrated Nerve Vitalizer and Tonic.

## PAINE'S CELERY COMPOUND

In hundreds of homes there is presented this same bitter spectacle, the mother who feels no joy in having her children about her, whose quivering nerves wince at the happy chatter, as if from the sting of a whip.

Too many a discouraged woman, or man, has recourse to the coffee pot—or to a still more insidious stimulant—and the result is nervous and physical wreck, and a sad dened home.

This tired, nerve-racked mother—Mrs. A. P. Ellen—was wise enough to build up her system and her nerve forces quickly, instead of taking a stimulant like coffee to burn them up. She writes:

"I am the mother of a large family, and household duties completely wore me out. I became nervous and ran down and had no appetite. I was so nervous that my children's talk, which always amused me, became a source of irritation.

"I often wished I had no children. About three weeks ago I began taking Paine's Celery Compound, and it is a blessed medicine. It certainly has restored my temper and appetite. My nervousness has all disappeared. I am grateful for the discovery of such a great remedy."—MRS. A. P. ELLEN, Mount Washington, Pa.

Cincinnati, Aug. 23, 1903.—"I heartily recommend Paine's Celery Compound, as I have used it for several purposes, and keep it constantly in the house. I say—'Once used, always used'—especially in the case of ailing women."—Miss Essie Lloyd, 1251 Russell street.

## FALSE DOCTRINES DO NOT SAVE MEN

Continued from Third Page.

so Jesus coming into Galilee began to preach: "The kingdom of God is at hand; repent ye and believe the gospel." By the prophet Joel the Lord says: "Turn ye even unto me with all your heart, and with fasting and with weeping, and with mourning and rend your heart and not your garments and turn unto the Lord your God." Neither must we think, if we had once repented we need thereafter no more repent. Every day of our lives should we call this sad fact to our mind that we are sinners and have transgressed against God. And because our heart is so much inclined to love sin and to make light of it, so that of ourselves we cannot repent of sin so sincerely and so deeply as we ought, therefore we should often consider who and what God is.

"In the verse following our text He says of Himself: 'For to be that formed the mountains, and createth the wind, and declareth unto man what is his thought, that maketh the morning darkness, and treadeth upon the places of the earth, the Lord, the God of hosts is His name. Against this God who formed the mountains, who bringeth the wind out of His chambers, who knoweth the thoughts of every man from afar, against this God you have sinned.' He is a God able to visit our sins upon us and our children. He can arm all His creatures against us, and we should not only walk before Him with fear and trembling, we should spread our hearts before Him, beseeching Him to read our inner thoughts, and because we cannot repent as we ought He himself would work the right, true repentance in us. But alone by repentance and sorrow over sin we would not be prepared to meet God with cheerfulness and confidence. Judas Iscariot sorrowed over his sin, but his sorrow was unto death, driving him to despair and it did not prepare him to meet God.

"To be ready to meet God we must have the assurance, the certainty that our transgressions are forgiven, that our sins are put away and shall no more be accounted unto us to all eternity. This assurance we can have alone through the faith of Jesus Christ, in whom alone is the remission of sin. This must be our faith, our hope, our trust, our confidence, our unwavering persuasion and our one and only plea before God and the Father that in Jesus Christ our sins are consigned to everlasting oblivion, even as the Lord has promised and said: 'I will forgive their iniquity and I will remember their sin no more.' Alone the persuasion of the gracious forgiveness of our sins for Christ's sake can truly prepare us cheerfully to meet God. This persuasion alone can give us the assurance to approach God, because alone the assurance of this gracious forgiveness works in us a good conscience towards God. But this faith also we cannot have of ourselves, because corrupt in its very nature the heart is always inclined to doubt and unbelief, and therefore we should here again diligently consider what God is and what He has done.

"That God who formed the mountains, who framed the heavens, who creates the wind, who reads the thoughts of man, the Lord of hosts who commanded the light to shine forth out of darkness, this God is surely able to save the soul from sin and

destruction. And what has this same God done? He has redeemed us in His own beloved Son. He has justified us from sin in the washing of regeneration, He has sealed our hope with the earnest of the Spirit and the testament of the Son, and He has promised to preserve us and finally to deliver us from all evil and to receive us to Himself in heaven."

## THE CHURCH OF THE LIVING GOD

Rev. H. H. Bowden Shows How and Why It is the Pillar and Ground of Truth.

Pastor H. H. Bowden's sermon at the Baptist church yesterday morning was the third of a series on the Church. The text was 1 Tim. 3:15, "The church of the living God, the pillar and ground of truth." The name "church" brings the church before us as God's family, and also the temple in which He dwells; the name "church" brings the thought of the church as it is related to the world, the body of "called out" ones; the "pillar and ground of the truth" brings the church before us in its relation to the truth.

This we may see from a study of the three distinct uses of the pillar, which we find in the Scriptures, viz: First, The use of the pillar as a support. The speaker gave a number of illustrations of this use of the pillar, and then went on to show how the church is the pillar in this sense. Christ is the foundation, the underlying bed-rock. The world of unconverted men do not see Him; but they do see His church which upholds His truth, and stands for it.

Second, The monumental or commemorative use of the pillar, many illustrations of which are in the Bible. The very existence of the church is a monument, telling of the life, death, resurrection and ascension of the Lord Jesus Christ. And then, as a monument will have inscriptions upon it even so it is with the church, in her observance of the Christian Sabbath, and the ordinances of baptism and the Lord's Supper, which symbolize the very central truths of the Christian system, viz: The necessity of the new birth, and the way of salvation only through the atoning death of Jesus Christ. Our duty is to see that the inscriptions are handed down as they have been written on the pillar, allowing no hammer and chisel of men to deface the inscriptions.

## WOMAN'S WORK ENDANGERS HEALTH

Why Mothers and Housewives Are So Often Weak and Miserable

Cooking, cleaning, caring for the children. Never a change; always the same dull monotony of housework. Is it any wonder women look old and worn when they are still young in years? Is it any wonder their shoulders begin to stoop, their eyes grow dull and their faces careworn?

If Rexall Muc-Tone had been planned and compounded to meet the needs of certain class of people it would not have filled the requirements of these women more fully than it does.

Working and worrying, day in and day out, year after year, is sure to affect the organism of the body. The change is so slow that no one notices it taking place. But some day the wife or mother realizes that she isn't feeling as well as she used to. The work she formerly did with ease now makes her very tired. She feels weak and dizzy and suffers with frequent dull headaches. Sometimes her back aches. Her husband tells her she is "run down" and then she begins taking a "tonic."

The tonic strengthens her somewhat—temporarily—but there is a cause for her weakness, and suffering, and this must be cured before she can hope for health. The tonic does not cure anything.

If this woman had consulted an experienced catarrh specialist he could have told her that she was suffering from a catarrhal congestion of the mucous membranes brought on by her confined life, a lack of outdoor exercise, and a bad condition of the blood.

Muc-Tone is all right, it is a good medicine. I have been greatly troubled with catarrh and have tried various remedies. The disease seemed to affect me in the ears and throat. It has been very annoying and has caused me considerable discomfort and anxiety. I was so relieved by the Muc-Tone that I took that I shall get a larger supply of it and use it thoroughly. One of my relatives was also benefited by this medicine. I can say that it is a good one."—Miss Frances Drexler, 15 Warren St., Utica, N.Y.

Rexall Muc-Tone will give weak women new life and a new fund of energy; fill their arteries with rich, red blood; make their eyes bright and their feet firm and elastic. More than this, it will give them a clear complexion such as no cosmetics could possibly produce.

Muc-Tone does this by cleansing the mucous membranes, by driving out all the catarrhal poisons, and by restoring the mucous cells their natural, healthy functions. It is also a powerful, nutritive, flesh-building medicine.

We want every woman in this city to know that in Rexall Muc-Tone she will find immediate relief from all weakness, dizziness and pain, and in order to show how sincere we are—how absolutely certain we are that this remedy will do all we claim for it, we make this remarkable offer: Buy a bottle of Rexall Muc-Tone today and take a tablespoonful three times a day. If you do not feel better from the very start; if three or four weeks' treatment does not make you feel like a new woman—strong, and well, and full of life and vigor—bring back the empty bottle and we will refund your money.

## PROGRAM LAID OUT

Leaders in Congress Decide What Measures Shall Be Considered.

## STATEHOOD BILL UP IN HOUSE

Senate Deftly Avoids Action on Embarrassing Subjects—Pension Bill Will Likely Cause Considerable Debate—Adjournment Set for April 28.

Washington, April 18.—Statehood and ship subsidy will be the features of the house proceedings this week, with conference reports and minor bills to fill in the gaps. The committee on rules today will decide on a program for the statehood bill. The rule on this matter will call for consideration of the bill Tuesday, with debate limited probably to four hours. It is the intention to dispose of this bill entirely on Tuesday. The rule making a special order for the Gardner bill, providing for a joint commission of members of the house and senate to investigate the whole question of ship subsidy during the recess of congress will be brought forward by Mr. Grosvenor on Wednesday. Debate on this measure will consume probably six hours. The Alaska delegate bill will remain the "continuing order" and receive consideration whenever there is nothing else before the house. The plan of the leaders contemplates final adjournment on April 28.

There will be an effort to keep appropriation bills to the front during the present week in the senate and to this end the sundry civil bill will be taken up at once. When it is disposed of the pension appropriation bill will be pressed, and it is hoped that that bill will in turn be immediately followed by the general deficiency bill. The senate leaders are apprehensive of the effect of consideration of various bills on the calendar and are exercising their ingenuity to keep them in the background.

There are some features of the sundry civil bill which will cause discussion and it is believed that it will hold attention during Monday and Tuesday. The pension bill usually goes through without debate, but it is probable there will be quite a little discussion on the pending bill.

If opportunity is offered Senator Hansbrough will endeavor to obtain consideration of the Indian agreement bills. Senator Fairbanks also stands ready to press the first chance that offers to press his bill for a new executive building in Washington.

## Deafness Cannot Be Cured

by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional treatment. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running ear, which is often called "catarrh of the Eustachian Tube," and when it is not entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous services.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for literature.

## HER BABIES' PRATTLE TORTURED HER

Run Down, Sick, Moody, Irritable—This Burdened Mother "Often Wished She Had No Children"—But Today She is Bright, Strong, Cheerful, Well, Quickly Braced—Invigorated and Cured By the Celebrated Nerve Tonicizer and Tonic.

## PAINE'S CELERY COMPOUND

In hundreds of homes there is presented this same bitter spectacle, the mother who feels no joy in having her children about her, whose quivering nerves vibrate at the happy chatter, as if from the sting of a whip.

Too many a discouraged woman, or man, has recourse to the coffee pot—or to a still more insidious stimulant—and the result is nervous and physical wreck, and a sad denuded home.

This tired, nerve-racked mother—Mrs. A. F. Ellen—was wise enough to build up her system and her nerve forces quickly, instead of taking a stimulant like coffee to burn them up. She writes:

"I am the mother of a large family, and household duties completely wore me out. I became nervous and run down and had no appetite. I was so nervous that my children's talk, which always amused me, became a source of irritation."

"I often wished I had no children. About three weeks ago I began taking Paine's Celery Compound, and it is a blessed medicine. It certainly has restored my temper and appetite. My nervousness has all disappeared. I am grateful for the discovery of such a great remedy."—MRS. A. F. ELLEN, Mount Washington, Pa.

Cincinnati, Aug. 26, 1903.—"I heartily recommend Paine's Celery Compound, as I have used it for several purposes, and keep it constantly at hand. I say—'Once used, always used'—especially in the case of ailing women."—Miss Essie Lloyd, 1251 Russell street.

## FALSE DOCTRINES DO NOT SAVE MEN

Continued from Third Page.

so Jesus coming into Galilee began to preach: 'The kingdom of God is at hand: repent ye and believe the gospel.' By the prophet Joel the Lord says: 'Turn ye even unto me with all your heart, and with fasting and with weeping, and with mourning and rend your heart and not your garments and turn unto the Lord your God.' Neither must we think, if we had once repented we need thereafter no more repent. Every day of our lives should we call this sad fact to our mind that we are sinners and have transgressed against God. And because our heart is so much inclined to love sin and to make light of it, so that of ourselves we cannot repent of sin so sincerely and so deeply as we ought, therefore we should often consider who and what God is.

"In the verse following our text He says of Himself: 'For he that formeth the mountains, and createth the wind, and declareth unto man what is his thought, that maketh the morning darkness, and treadeth upon the places of the earth, the Lord, the God of hosts is His name. Against this God who formed the mountains, who bringeth the wind out of his chambers, who knoweth the thoughts of every man from afar, against this God you have sinned.' He is a God able to visit our sins upon us and our children. He can arm all His creatures against us, and we should not only walk before Him with fear and trembling, we should spread our hearts before Him, beseeching Him to 'read our inmost' thoughts, and because we cannot repent as we ought He himself would work the right, true repentance in us. But alone by repentance and of sorrow over sin we would not be prepared to meet God with cheerfulness and confidence. Judas Iscariot sorrowed over his sin, but his sorrow was unto death, driving him to despair and it did not prepare him to meet God.

"To be ready to meet God we must have the assurance, the certainty that our transgressions are forgiven, that our sins are put away and shall no more be accounted unto us to all eternity. This assurance we can have alone through the faith of Jesus Christ, in whom alone is the remission of sin. This must be our faith, our hope, our trust, our confidence, our unwavering persuasion and our one and only plea before God and the Father that in Jesus Christ our sins are consigned to everlasting oblivion, even as the Lord has promised and said: 'I will forgive their iniquity and I will remember their sin no more.' Alone the persuasion of the gracious forgiveness of our sins for Christ's sake can truly prepare us cheerfully to meet God. This persuasion alone can give us the assurance to approach God, because alone the assurance of this gracious forgiveness works in us a good conscience towards God. But this faith also we cannot have of ourselves, because corrupt in its very nature the heart is always inclined to doubt and unbelief, and therefore we should here again diligently consider what God is and what He has done.

"That God who formed the mountains, who framed the heavens, who creates the wind, who reads the thoughts of man, the Lord of hosts who commanded the light to shine forth out of darkness, this God is surely able to save the soul from sin and destruction. And what has this same God done? He has redeemed us in His own beloved Son, He has justified us from sin in the washing of regeneration, He has sealed our hope with the earnest of the Spirit and the testament of the Son, and He has promised to preserve us and finally to deliver us from all evil and to receive us to Himself in heaven."

Rev. H. H. Bawden Shows How and Why It is the Pillar and Ground of Truth.

Pastor H. H. Bawden's sermon at the Baptist church yesterday morning was the third of a series on the Church. The text was 1 Tim. 3:15, "The church of the living God, the pillar and ground of truth." The name "church" brings the church before us as God's family, and also the temple in which He dwells; the name "church" brings the thought of the church as it is related to the world, the body of "called out" ones; the "pillar and ground of the truth" brings the church before us in its relation to the truth.

This we may see from a study of the three distinct uses of the pillar, which we find in the Scriptures, viz: First. The use of the pillar as a support. The speaker gave a number of illustrations of this use of the pillar, and then went on to show how the church is the pillar in this sense, Christ is the foundation, the underlying bed-rock. The world of unconverted men do not see Him; but they do see His church which upholds His truth, and stands for it.

Second. The monumental or commemorative use of the pillar, many illustrations of which are in the Bible. The very existence of the church is a monument, telling of the life, death, resurrection and ascension of the Lord Jesus Christ. And then, as a monument will have inscriptions upon it even so it is with the church, in her observance of the Christian Sabbath, and the ordinances of baptism and the Lord's Supper, which symbolize the very central truths of the Christian system, viz: The necessity of the new birth, and the way of salvation only through the atoning death of Jesus Christ. Our duty is to see that the inscriptions are handed down as they have been written on the pillar, allowing no hammer and chisel of men to deface the inscriptions.

Third. A third use of the pillar

## WOMAN'S WORK ENDANGERS HEALTH

Why Mothers and Housewives Are So Often Weak and Miserable

Cooking, cleaning, caring for the children. Never a chance always the same dull monotony of housework. Is it any wonder women look old and worn when they are still young in years? Is it any wonder their shoulders begin to stoop, their eyes grow dull and their faces careworn?

If Rexall Mucu-Tone had been planned and compounded to meet the needs of a certain class of people it would not have filled the requirements of these women more fully than it does.

Working and worrying, day in and day out, year after year, is sure to affect the organism of the body. The change is so slow that no one notices it taking place. But some day the wife or mother realizes that she isn't feeling as well as she used to. The work she formerly did with ease now makes her very tired. She feels weak and dizzy and suffers with frequent dull headaches. Sometimes her back aches. Her husband tells her she is "run down" and then she begins taking a "tonic."

The tonic strengthens her somewhat—temporarily—but there is a cause for her weakness and suffering and this must be cured before she can hope for health. The tonic does not cure anything.

If this woman had consulted an experienced catarrh specialist he could have told her that she was suffering from a catarrhal congestion of the mucous membranes brought on by her confined life, a lack of outdoor exercise, and a bad condition of the blood.

"Mucu-Tone is just right. It is a good medicine. I have been greatly troubled with catarrh and have tried various remedies. The disease seemed to affect me in the ears and throat. It has been very annoying and has caused me considerable discomfort and anxiety. I was so relieved by the Mucu-Tone that I took it I shall not get a larger supply of it and use it thoroughly. One of my relatives was also benefited by this medicine so I can say that it is a good one."—Mrs. F. A. DICKER, 15 Warren St., U.S.A., N.Y.

Rexall Mucu-Tone will give weak women new life and a new fund of energy; fill their arteries with rich, red blood; make their eyes bright and their flesh firm and elastic. More than this, it will give them a clear complexion such as no cosmetic could possibly produce. Mucu-Tone does this by cleansing the mucous membranes, by driving out all the catarrhal poisons, and by restoring to the mucous cells their natural, healthy functions. It is also a powerful, nutritive, flesh-building medicine.

We want every woman in this city to know that in Rexall Mucu-Tone she will find immediate relief from all weakness, diseases and pains, and in order to show how sincere we are—how absolutely certain we are that this remedy will do all we claim for it, we make this remarkable offer:

Buy a bottle of Rexall Mucu-Tone today and take a tablespoonful three times a day. If you do not feel better from the very start, if three or four weeks' treatment does not make you feel like a new woman—strong, and well, and full of life and vigor—bring back the empty bottle and we will refund your money.

Sold only at our store. Price, 50c per bottle.

## PROGRAM Laid Out

Leaders in Congress Decide What Measures Shall Be Considered.

Senate Defily Avoids Action on Em-

barrassing Subjects—Pension Bill Will Likely Cause Considerable De-

bats—Adjournment Set for April 28.

Washington, April 18.—Statehood and ship subsidy will be the features of the house proceedings this week, with conference reports and minor bills to fill in the gaps. The committee on rules today will decide on a program for the statehood bill. The rule on this matter will call for consideration of the bill Tuesday, with debate limited probably to four hours. It is the intention to dispose of this bill entirely on Tuesday. The rule making a special order for the Garfield bill, providing for a joint commission of members of the house and senate to investigate the whole question of ship subsidy during the recess of congress will be brought forward by Mr. Grosvenor on Wednesday. Debate on this measure will consume probably six hours. The Alaska delegate bill will remain the "continuing order" and receive consideration whenever there is nothing else before the house. The plan of the leaders contemplates final adjournment on April 28.

There will be an effort to keep appropriation bills to the front during the present week in the senate and to this end the sundry civil bill will be taken up at once. When it is disposed of the pension appropriation bill will be pressed, and it is hoped that that bill will in turn be immediately followed by the general deficiency bill. The senate leaders are apprehensive of the effect of consideration of various bills on the calendar and are exercising their ingenuity to keep them in the background.

There are some features of the sundry civil bill which will cause discussion and it is believed that it will hold attention during Monday and Tuesday. The pension bill usually goes through without debate, but it is probable there will be quite a little discussion on the pending bill.

If opportunity is offered Senator Hansbrough will endeavor to obtain consideration of the Indian agreement bills. Senator Fairbanks also stands ready to press his bill for a new executive building in Washington.

Deafness Cannot Be Cured by local applications as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedial. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a running sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous lining.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for particulars, free.

### Laundry Purity

with all it implies, depends on the soap you use. If you have been using one of the ordinary cheap brands of yellow laundry soap, you haven't had pure soap. You have had a generous share of rosin, some cheap grease with its disagreeable odor, and some alkali, not to mention other things. These don't tend to promote purity—you know that. EASY TASK SOAP is one of another color, it's white. It's pure—pure soap all the way through, made from coconut oil and borax. It has no rosin, no alkali—it's pure, clean, sweet smelling. It's purity is shown in everything it washes—woolens neither rot nor shrink, carpets and rugs come out bright and new, gossamer laces suffer no wear in cleansing. It pays to get a 5 cent bar of EASY TASK at your grocer's—the soap of purity.

### HOME AFFAIRS

Brief Notes of a Personal Nature and of Matters About Town.

Daughter Born—A daughter was born to Mr. and Mrs. Emmet Crites, of Sheridan avenue, last night.

Instruction Tonight—Catechetical instruction will be given by the pastor at St. John's Lutheran church this evening at 7 o'clock.

The Franklins Won—The Franklin A. C., in a baseball game full of interest on Saturday afternoon, defeated the College street Chescents, 11 to 7. The game was played in the old cemetery.

Mrs. Walker Fined—Mrs. Richard Walker got a drop too much Saturday night and landed at her favorite roost in the city jail. She was released yesterday upon paying the customary fine of \$5.

Same Old Offense—Tim Strain, Joan Arb, James Humphrey and John Connor were arrested Saturday night for being drunk. Each was fined this morning and given his preference of lying it out in jail or producing the cash.

Officers Elected—The directors of the Red Cross Training School for Nurses held a meeting this morning and elected the following officers: Dr. W. J. Taylor, president; M. E. Miskall, vice president; Dr. J. Howard Davis, secretary and treasurer; Attorney Davis and Percy Frost, trustees.

### Robbed the Grave.

A startling incident is narrated by John Oliver, of Philadelphia, as follows: "I was in an awful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite, growing weaker day by day. Then I was advised to use Electric Bitters; to my great joy, the first bottle made a decided improvement. I continued their use for three weeks, and am now a well man. I know they robbed the grave of another victim." No one should fail to try them. Only 50 cents guaranteed by Will Reed, Charles T. Larkins, C. G. Anderson, J. D. Holloway, druggists.

### FALSE DOCTRINES

#### DO NOT SAVE MEN

Continued from Seventh Page.

is the ornamental. The church is a pillar in this sense, illustrating the saving grace of God in the strength and beauty of Christian character. Some Christians are strong like the granite rock, but like the granite rock sharp and angular; others are strong like the oak tree, with its deep set, wide spreading roots, its mighty trunk and branches, but also beautiful as that oak is beautiful with its twigs and limbs and foliage. The speaker then endeavored to apply the practical thoughts growing out of this three-fold use of the pillar as illustrated in the Christian church.

In the evening his sermon was upon Moses, a sermon to young men on the man who refused the glittering offer of the opportunity of being called the son of the king's daughter.

### A SAFE GUIDE

The Church With Right Principles a Conservator of Sound Doctrine.

Rev. J. G. Reinartz at the Y. M. C. A. yesterday addressed an attentive audience. The music, by St. John's church choir, was excellent. The speaker said in part:

"When a church has right principles and is steadfast to them, no matter what forces are arrayed against it, it will have true success. It will be dear to God, precious to those who love Him, a safe guide of sinners to the Saviour, and will build up saints on their most holy faith. It will be a conservator of sound doctrine, of right government, of healthy discipline. It may not be fashionable, rich, or popular, but it will be a blessing to the world and a nursery for heaven.

"Other things may be well and good, but where Christ and the preaching of Christ and the holding forth of Christ in His true character and offices are the only hope of the soul are not the all in all, the rest is only emptiness. But Christ in the heart and in the sermons, Christ in the confessions, the hymns and the prayers of the congregations; Christ in the thoughts, the penitence, the faith, the hope, the affections and the deepest heart impulses of every worshipper; thus is the true glory of the church, its life, its power, its victory.

### PLAN OF SALVATION

As Propounded By the Apostle Paul. Paganism Decays, Christianity Lives.

Rev. Dr. Pratt found the subject for another very eloquent and able sermon in the epistles of Paul for the morning service at the First M. E. church. His subject, "An Eternal Antithesis," is based on the sixth chapter in the eighth verse of the apostle's epistle to the Romans. "For to be carnally minded is death; but to be spiritually minded is life and peace."

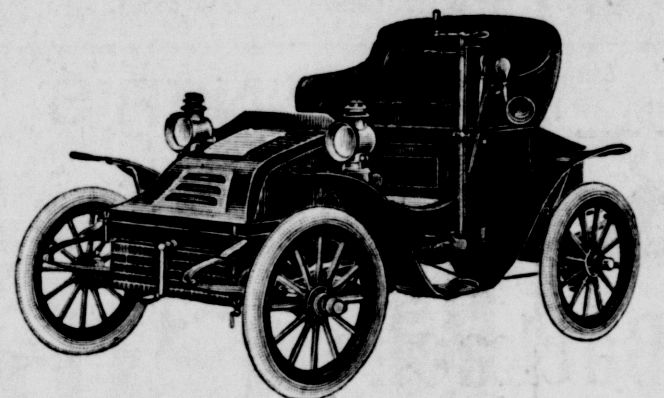

Paul's address was a most scathing indictment of paganism and a masterful exposition of the plan of salvation. It is no wonder that the Romans, given over to carnality, writhed under the sweeping arraignment. The minister clearly depicted the decay of the great empire through 500 and more years, wrought through carnality and paganism and brought home to his hearers the danger of destruction to the individual from these evils.

### A Thoughtful Man.

M. M. Austin, of Winchester, Ind., knew what to do in the hour of need. His wife had such an unusual case of stomach and liver trouble, physicians could not help her. He thought of and tried Dr. King's New Life Pills and she got relief at once and was finally cured. Only 25c, at Will Reed's, C. T. Larkins', C. G. Anderson's and J. D. Holloway's drug stores.

**Satisfaction!**

Two million women attest to the "SATISFYING QUALITIES" of the "Queen Quality" shoe. There's no need to go into an analysis of its construction—you are not a shoemaker! But you know that you like it. And that is enough. "Queen Quality" will retain its shape longer than any ready-made shoe at any price.

It is worth ten dollars a pair if you value an absolutely faultless fit. Your foot will look smaller in it, because of its correct shape, and many women wear it on this account alone.

#### Laundry Purity

with all it implies, depends on the soap you use. If you have been using one of the ordinary cheap brands of yellow laundry soap, you haven't had pure soap. You have had a generous share of rosin, some cheap grease with its disagreeable odor, and some alkali, not to mention other things. These don't tend to promote purity—you know that. EASY TASK SOAP is one of another color, it's white. It's pure—pure soap all the way through, made from coconut oil and borax. It has no rosin, no alkali—it's pure, clean, sweet smelling. It's purity is shown in everything it washes—woolens neither rot nor shrink, carpets and rugs come out bright and new, gossamer laces suffer no wear in cleansing. It pays to get a 5 cent bar of EASY TASK at your grocer's—the soap of purity.
